New Service Request

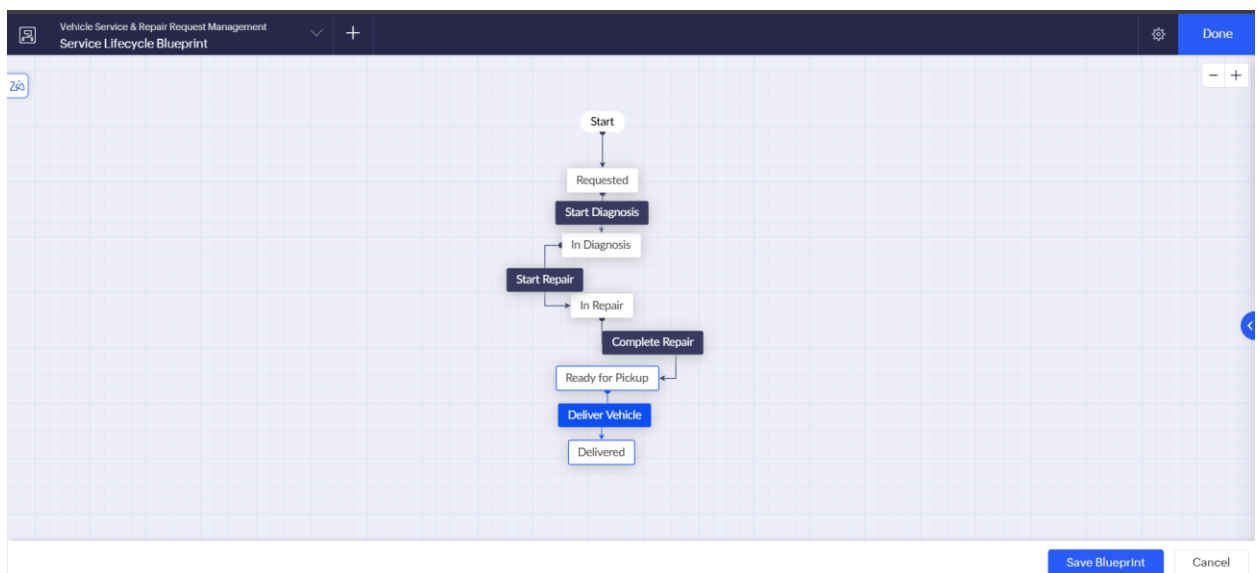

A new vehicle service request has been submitted. Please prepare the job card and review the service request details.

Today, 10:53 PM

New Service Request

A new vehicle service request has been submitted. Please prepare the job card and review the service request details.

Today, 10:40 PM

RESULT

The workflow automation was successfully configured. On service-request submission, the form workflow is configured to send a confirmation mail and notification. The Service Lifecycle Blueprint was created and saved with the stages Requested → In Diagnosis → In Repair → Ready for Pickup → Delivered.
