

EXPERIMENT 5B – PAGES

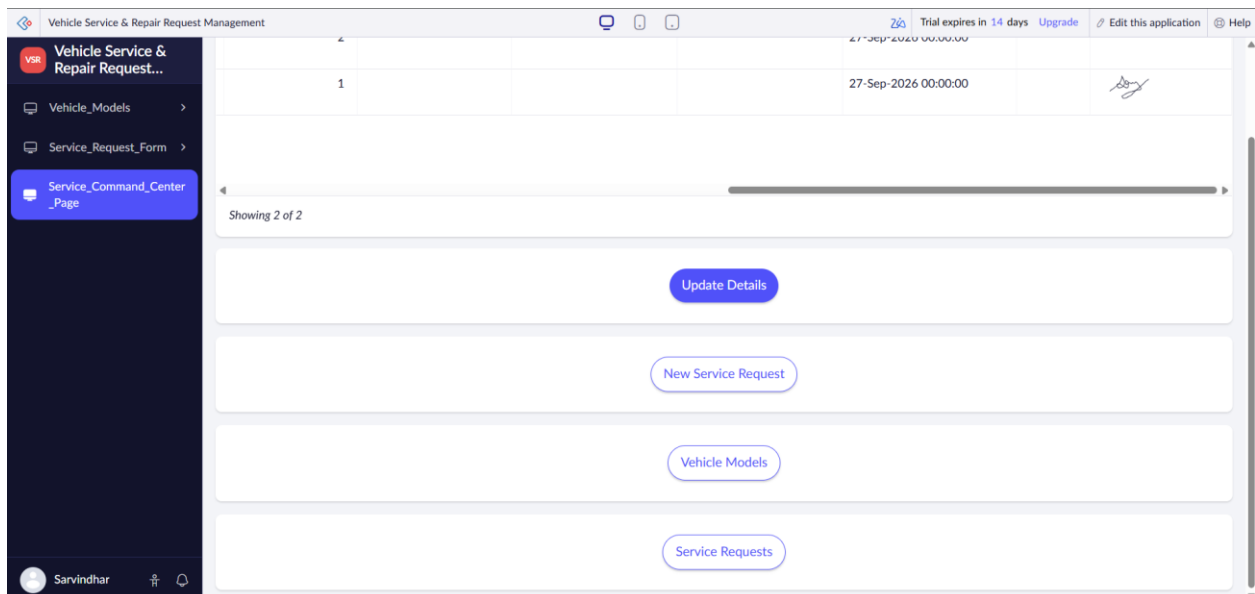

AIM

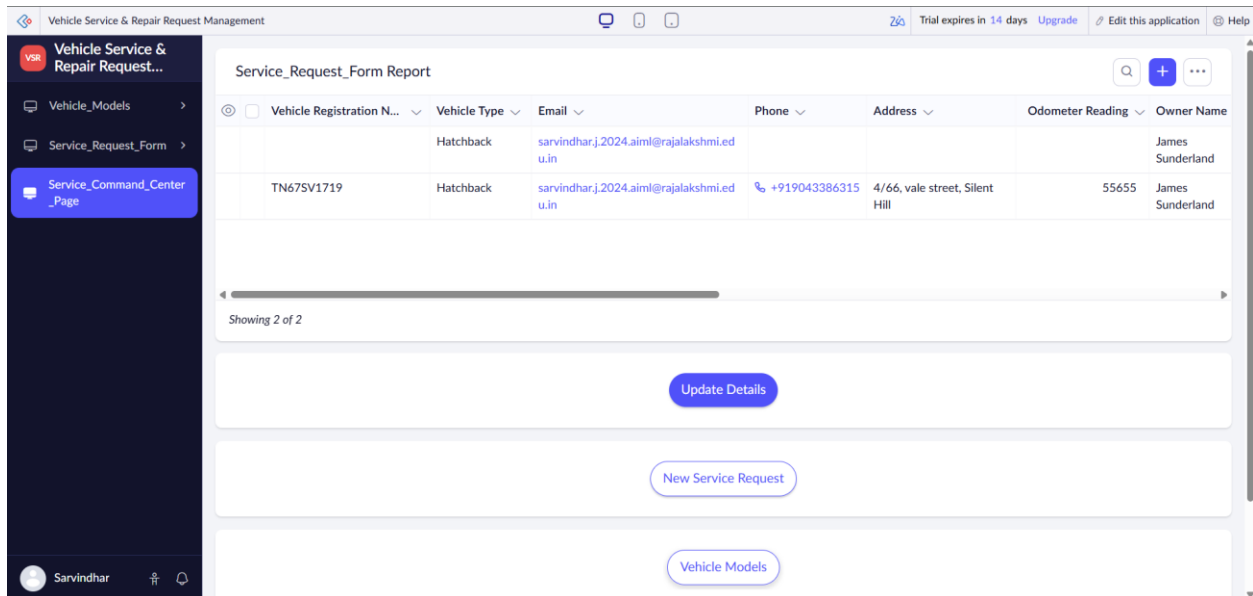

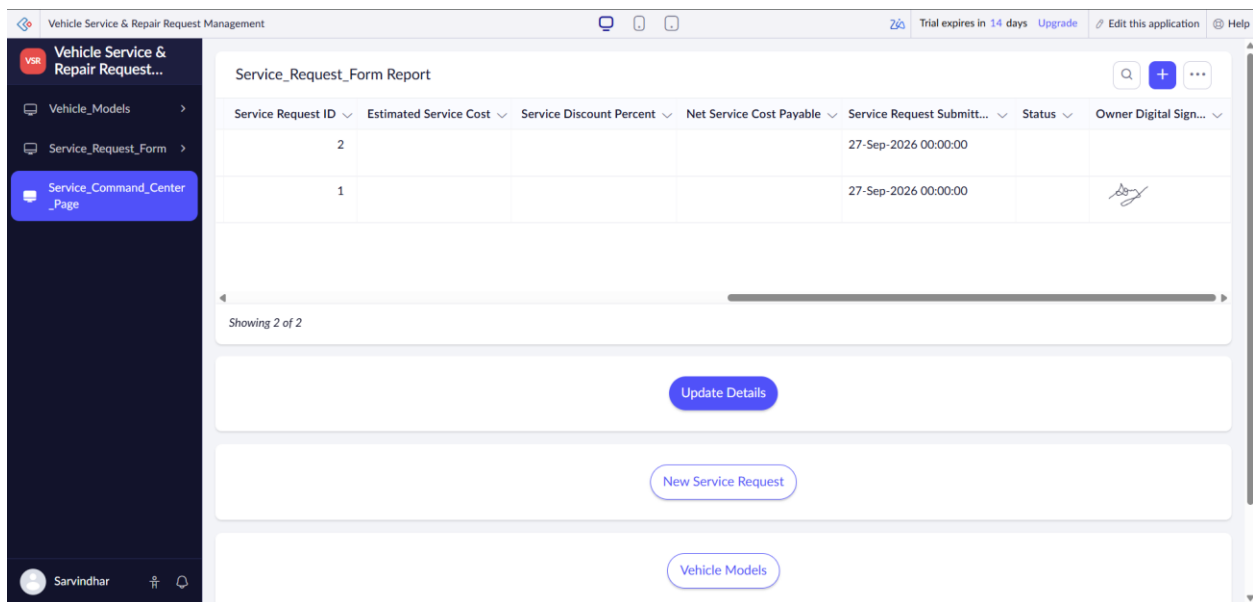

To design a command-center page in Zoho Creator that presents vehicle service information and provides convenient navigation and actions for the service-center application.

ENTITIES / FEATURES USED

Zoho Creator Page; Service_Command_Center_Page; embedded Service_Request_Form_Report; report display; page actions/buttons such as Update Details, New Service Request and Vehicle Models; page layout and navigation.

SCREENSHOTS

RESULT

The Service_Command_Center_Page was successfully designed as a service-center command page. It displays the service-request report and provides controls for updating records, creating new service requests and accessing vehicle-model information.
